“First Manhattan International Music Competition”

It is our pleasure to furnish you with information regarding the “First Manhattan International Music Competition”, which is open to pianists, singers and string performers aged up to 35 years old. The purpose of the “Manhattan International Music Competition” is to discover artists of outstanding personality and provide awards which may help to launch international careers:
- Various remunerated recitals at Carnegie Hall in New York (July 8th 2016).
- A CD recording to be distributed internationally by the label Orpheus: the artist will retain 100% of the recording rights, and receive 1,000 CDs.
- Incorporation in the roster of artists of “Manhattan International Artists”.
- Second and third awards, and special prizes.
- Marketing campaign and publicity for the concert at Carnegie Hall and the CD recording.
We believe that many musicians currently studying at your institution would be interested in participating.

Please, we beg you to transmit this email to them, so that the students will be informed about our present competition.
Thank you very much for your assistance and consideration.

Sarah Anderson,
Manhattan International Music Competition
