Dear Sir, Madam,

We are delighted to inform you that, in addition to the more than 200 existing courses, we may add a Chamber Music Course. Students of music at both Bachelor and Master level are more than welcome to apply for the course. During this highly interactive course, the emphasis lies on discovering new music and new interpretations of standard repertoire with the Utrecht String Quartet. They are one of the most renowned chamber music ensembles recognized for their versatility and dynamism both within the Netherlands as well as around the world. The quartet is formed by Eeva Koskinen (violin), Katherine Routley (violin), Mikhail Zemtsov (viola) and Sebastian Koloski (cello).

During this one week course, students will cover three basic elements; tuition, practice and performance. This course is also open to solo violinists (masterclasses with Eeva Koskinen), violists (masterclasses with Mikhail Zemtsov) and cellists (masterclasses with Sebastian Koloski). Students will perform in front of a live audience. The historic city of Utrecht offers many opportunities to visit concerts and museums.

We would be most grateful if you could publish this poster about the Masterclasses in Chamber Music by displaying the poster at a suitable point in your institution or organization. If you would like to receive more copies of the poster, please let us know.

More information on this or any of the other courses of the Utrecht Summer School and our programme can be found at www.utechsummerschool.nl.

Yours faithfully,

The Utrecht Summer School Team
