COMPOSITION COURSE with WIM HENDERICKX AND DIEDERIK GLORIEUX
ELECTRONIC MUSIC with JORRIT TAMMINGA
ROBOT ORCHESTRA with LOGOS FOUNDATION

Tuesday 14 - Saturday 18 July 2015

SoundMine is an international composition course with intensive coaching by top-level coaches who are composers themselves. Young people and adults with a passion for composing and creating will spend five days working intensively towards a presentation during which the works created will be shown and performed.

The course is aimed at artists who are just starting out and young professionals from Belgium and abroad who will benefit from the extra encouragement this course provides. They will be selected on the basis of their motivation, scores, sound recordings and development potential.

Established names Wim Henderickx and Diederik Glorieux will lead the sixteenth edition of the composition course. Composer and sound artist Jorrit Tamminga will once again immerse the composers in the world of electronic music.

This year we will pay special attention to the combination between music and media. Furthermore, the participants will have the opportunity to compose a piece that will later be performed by the renowned Logos Robot Orchestra.
